TRANSACTION OVERVIEW

EASTDIL SECURED & JLL HAVE BEEN EXCLUSIVELY MANDATED TO ADVISE ON PROJECT EIFFEL, THE SALE OF THE PULLMAN PARIS TOUR EIFFEL

Strategically positioned with direct and unobstructed views of the Eiffel Tower, this landmark 435-key hotel spans approximately 30,400 sqm and is operated by Accor. Situated in an unrivalled location in the heart of Paris, the Hotel benefits from strong demand from high-spending international leisure guests and delivers strong cash flow. Having benefited from the positive recovery of the Paris market and from the rebalancing of its business mix towards the individual clientele in recent years, the Hotel is now poised to further move upmarket. This upgrade, underpinned by a carefully designed and detailed CapEx plan, will serve as a catalyst to accelerate both revenue growth and profitability.

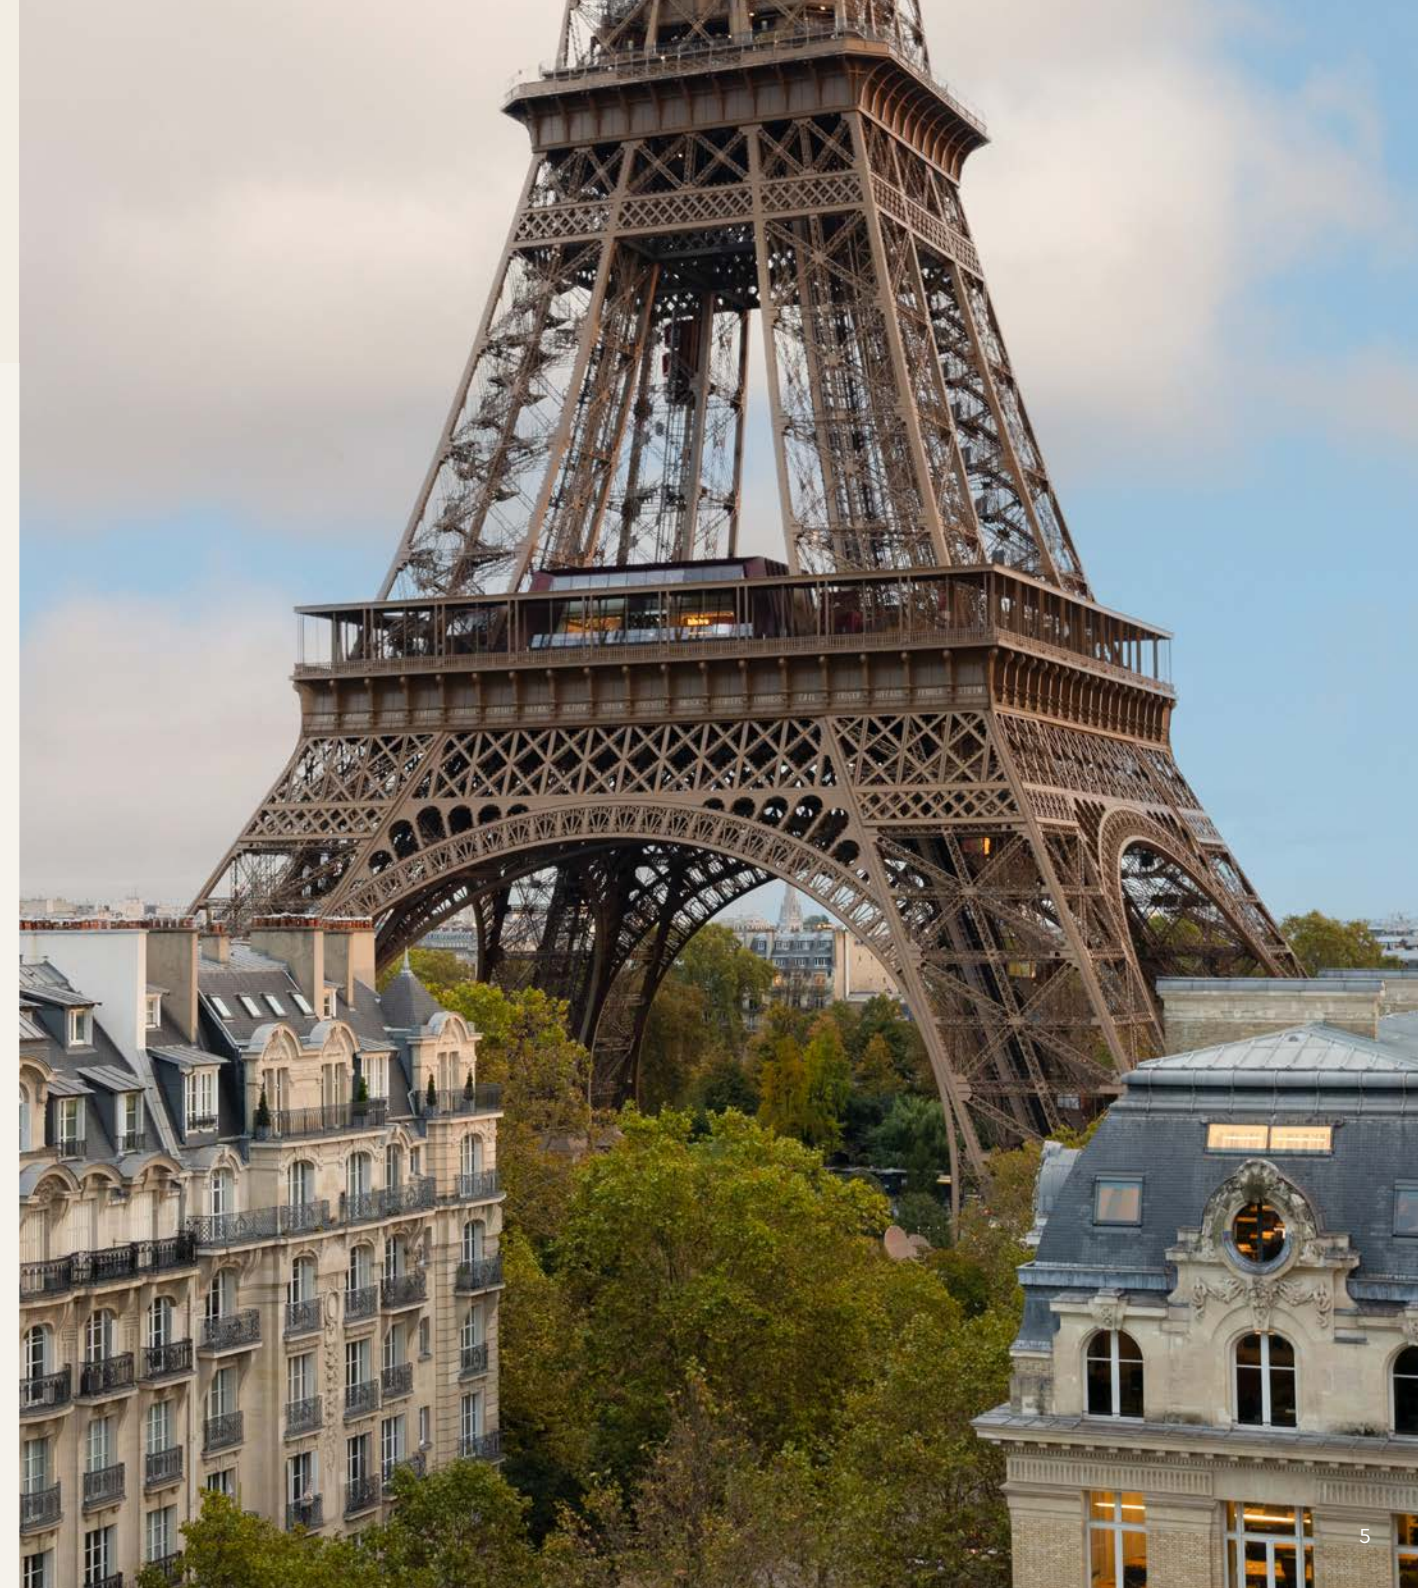

Ideally located just steps from the Eiffel Tower, the Champ-de-Mars and the Trocadero, the Pullman Paris Tour Eiffel enjoys an exceptional setting and offers the best views over the Iron Lady.

Opened in 1966 as Paris's first modern large-scale hotel, it was fully refurbished in 2013–2014. In 2024, the current owners launched a comprehensive capital expenditure program, targeting the enhancement of guest comfort and the facade as well as the alignment with sustainability targets while the Hotel continues to generate significant cash flow.

The combination of its unique location and Eiffel Tower views, its large room sizes and established leisure appeal make it one of the last five-star upgrade opportunities in central Paris.

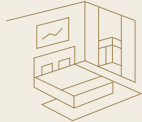

Project Eiffel represents a rare opportunity to acquire a prominent freehold hotel in one of the world's most supply-constrained hospitality markets. The offering is underpinned by strong market fundamentals, robust cash flows and substantial value-add potential, and consistently high demand from both leisure and corporate segments.

The sale will be structured as a share deal for 100% of the shares.
