Executive Summary

SAX

Introduction

On behalf of Compagnie de Phalsbourg (the "Owner"), JLL's Hotels & Hospitality Group and Eastdil Secured as the sole and exclusive advisors are pleased to offer qualified investors the exceptional opportunity to acquire the freehold interest in the hotel currently trading as Sax Paris, LXR Hotels & Resorts (the "Hotel", "Asset" or "Property").

Strategically located in the prestigious 7th arrondissement, the Hotel Sax is the result of a complete restructuring of a historic building into a state-of-the-art hospitality asset, featuring room interiors designed by renowned designer Philippe Starck and a newly added rooftop terrace offering a 360° view of Paris.

The Property boasts 118 spacious rooms and suites averaging 31 sqm and world-

class amenities to cater to international guests, featuring a rooftop restaurant, stylish bar, fitness centre, spa, outdoor heated swimming pool, and a meeting room. A strategic partnership with Kinugawa, a premium F&B concept, enhances the culinary offerings on the 7th-floor restaurant and 8th-floor rooftop terrace. Operating under Hilton's exclusive LXR Hotels & Resorts brand, the Hotel benefits from Hilton's robust global distribution channels.

In a market where new developments are rare, this Property's substantial room count positions it among only 10% of Parisian hotels with more than 100 rooms, underlining its scarcity in the French capital's competitive luxury hospitality landscape.
